Mini Project Exhibition Report

Date: 16 June 2026

Venue: Department of Electronics and Communication Engineering, JIT, DVG

A Mini Project Exhibition was conducted as part of the “Introduction to Electrical Engineering” course organized on 16 June 2026 for the First Year Artificial Intelligence & Machine Learning (AI & ML) and Information Science & Engineering (ISE) students by Mrs. Vinutha L B, Department of ECE. The event provided a platform for students to showcase their innovative ideas, technical knowledge, and practical skills through mini projects developed as part of their academic curriculum

The exhibition was graced by the presence of:

- Dr. Ganesh D. B., Principal, Jain Institute of Technology, DVG
- Dr. Prakash K. B., Dean Academics, Jain Institute of Technology, DVG
- Dr. Santosh Herur, Professor and Head, Department of ECE, JIT, DVG

The dignitaries visited the exhibition, interacted with students, observed project demonstrations, and appreciated the creativity, teamwork, and technical competence displayed by the participants. Students confidently explained the objectives, methodology, implementation, and applications of their projects.

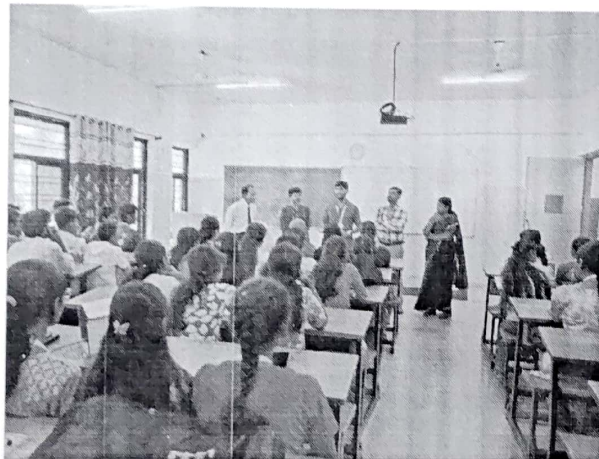

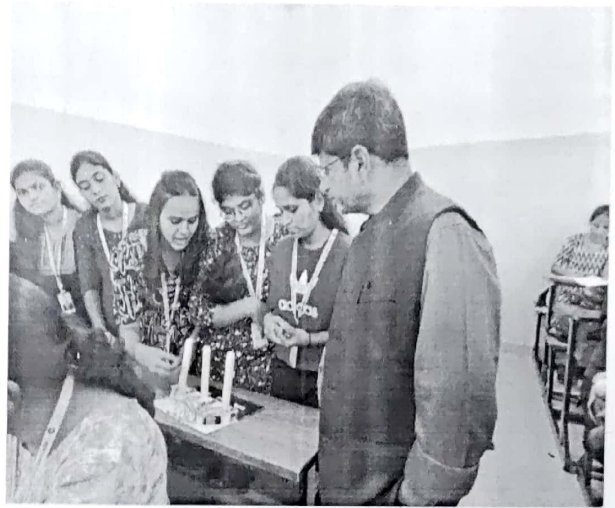

The projects demonstrated innovative thinking and practical application of engineering concepts. The exhibition encouraged experiential learning, technical communication, and problem solving skills among students.

Outcomes :

- Enhanced practical and technical skills.
- Encouraged innovation and creativity.
- Improved presentation and communication skills.
- Promoted teamwork and collaborative learning.
- Increased student confidence in project development and demonstration.

The Mini Project Exhibition concluded successfully with positive feedback from the Principal, Dean Academics, and Head of the Department. The event inspired students to continue exploring innovative technological solutions and strengthened their interest in project-based learning. The overall feedback received from the students was highly positive.

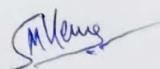

Glimpses of mini project exhibition
